

SAVE NEWICK.COM

In the run up to the general election the political parties will be asking for our votes. When they knock on your door we want you to ask them:

“What are you doing to Save Newick?”

OUR DRINKING WATER IS AT RISK

They want to build a dump between Newick and Piltdown, on a hillside next to the river. Toxic Waste chemicals could get in our local drinking water.

THE RUBBISH WILL BE 80 FEET HIGH

No, it's not going in a hole... landraise is when rubbish is piled up ABOVE ground level. 80 feet is equivalent to five double decker buses high.

IT WILL BE BIGGER THAN WEMBLEY

The waste site will cover a minimum area of 60 acres. It could be more... the search area is 270 acres. Wembley's roof covers just 11 acres.

HUGE 80 TONNE TRUCKS IN OUR VILLAGE

Our Road Safety is at Risk. Huge Waste Lorries will go in and out of the dump every 5 minutes. Diggers and Bulldozers will be working on the dump throughout the day and the noise will be unbearable.

HOMES ARE FALLING IN VALUE

Do you want to live next to a disgusting noisy smelly rubbish dump? How much do you think our homes will be worth if you don't act to stop this now? Even before it gets built the proposal will affect our property values.

ACT NOW... TIME IS RUNNING OUT

The county has just one dump left with 3 years capacity remaining. We are now on a shortlist of 5 sites. They want to pick at least 2! Will it be Newick?

Print out this factsheet and stick it to the back of your front door so that when they call at your home you are ready to challenge them. If we can get as many people as possible to put our politicians on the spot it will become very clear to them that it should be their top priority to stop this waste site from ever being built.

To find out more about the proposals, visit our web site at [SAVE NEWICK.COM](http://SAVENEWICK.COM)
